## ABOUT OUR **COMPANY**

Times Plastik is a dynamic and solution-oriented brand specializing in the production of plastic cups, plates, and sauce containers.

While our brand itself is young, it is backed by extensive industry experience, a strong technical infrastructure, and a skilled production team. This expertise has enabled us to achieve high quality standards in a short time and become an active supplier in international markets.

With a modern production approach, flexible manufacturing capacity, and the ability to quickly adapt to customer needs, we provide reliable and sustainable solutions for Europe, the United Kingdom, and the United States.

At Times Plastik, we combine our industry experience with an innovative mindset to deliver long-term value to our business partners.

## **OUR VISION**

To become a globally recognized and preferred manufacturer in the plastic packaging industry by setting standards in plastic cup production, offering innovative solutions, and delivering consistent quality across international markets.

We aim to strengthen our position in Europe, the United Kingdom, and the United States by continuously investing in technology, product development, and sustainable production practices, while creating long-term value for our customers and business partners.

## **OUR MISSION**

To manufacture high-quality plastic cups, plates, and sauce containers that meet international standards, while providing flexible solutions through customized products, special packaging options, and the ability to ship multiple product varieties in a single container.

We are committed to controlling every stage of our operations—from production to packaging, storage, and logistics—to ensure reliability, efficiency, and customer satisfaction. By focusing on innovation, operational excellence, and a customer-oriented approach, we strive to be a trusted and long-term solution partner for our global clients.

## FOUNDER'S MESSAGE

Dear Business Partners,

In the production of plastic cups, plates, and sauce containers, we consider quality not merely as a goal, but as a standard applied at every stage of our operations. With our strong technical infrastructure and expertise-particularly in plastic cup manufacturing-we deliver professional solutions to our industry.

Thanks to our wide product range, customized packaging options, and the ability to ship multiple product varieties within a single container, we provide flexible and cost-effective solutions for our business partners. In addition to standard products, we also develop tailor-made

products and packaging that precisely meet our customers' specific requirements.

From production and packaging to storage and logistics, every step of our process is carefully monitored in line with our quality control principles. This approach has enabled us to become a trusted supplier in all markets we serve, especially across Europe, the United Kingdom, and the United States.

Today, as in the future, we will continue to add value to our business partners through our innovative perspective, high production standards, and solution-oriented approach.

Thank you for your trust in us.
